## Duster in Africa with “Cinéma Numérique Ambulant” cultural association

[Cinéma Numérique Ambulant \(CNA\)](#), an association that leads cultural initiatives and manages a range of mobile film projection units, mainly in French-speaking Africa, is to acquire six Renault Dusters by the end of the year to renew its vehicle fleet, thanks to partnerships with Renault, the European Union, Africalia Belgium and the General Council of Val-de-Marne.

This sponsorship initiative shows Renault's commitment to original initiatives that give disadvantaged people access to culture.

The strengths of Renault Duster, a robust, economical and spacious vehicle, and therefore suitable for transporting CNA teams and equipment on all types of terrain, are thus serving the human being.
